

Brief Message on Victoria Hospice for Third Party Events

Since 1980, Victoria Hospice has provided quality end-of-life care to patients and families facing advanced illness, death and bereavement. The care at Victoria Hospice is provided by an expert team of physicians, nurses, counsellors, and volunteers.

Victoria Hospice offers compassionate care and pain and symptom management to more than 1,000 patients annually. Care is provided in patients' homes, in the community, and within our 17-bed in-patient unit at the Royal Jubilee Hospital in Victoria, BC.

We also extend our care to patients' families and loved ones through our bereavement support and grief counselling programs for up to one year following death.

Gifts to Victoria Hospice support skilled and compassionate end-of-life care in Greater Victoria and help to advance palliative care through research, education and advocacy.

Donations make a difference - generous support from our community is needed to fund roughly half of Victoria Hospice's annual operating costs of \$7 million.
