

Victoria Hospice

Victoria Hospice has been providing physical, emotional and spiritual care to patients and their loved ones in Victoria, British Columbia since 1980. This care is called palliative or comfort care, and includes expert physical care as well as counselling, spiritual care and bereavement services. Hospice palliative care is offered in patients' homes, on our 17-bed in-patient unit, and as specific medical consultation to patients in other health care facilities.

Annually, Victoria Hospice provides care for over 2,500 clients - including patients and their loved ones.

Over 400 trained volunteers provide companionship and support, both on our in-patient unit as well as in the community.

At home or in hospital, our team of trained professionals and volunteers provide compassionate care to meet the physical, emotional and spiritual needs of our patients and their loved ones.
